Department for
Transport

Port Facility Security Officer (PFSO) Course

Maritime Security Training

We offer a 3-day TRANSEC approved course to provide the necessary security training and background knowledge for those officers appointed as Port Facility Security Officers.

Course Objectives:

The aim of the training is to provide an appointed Port Facility Security Officer with the knowledge and skills to meet their requirements in accordance with the rules and regulations set out in the International Ship & Port Facility Code (ISPS).

PFSO Training:

- Introduction to Maritime Security
- Security Responsibilities & Training Requirements
- Threat Identification, Recognition and Response
- Port Facility Risk Assessments
- Security Actions & Equipment
- Security of Information
- Security Risk Analysis & Assessment
- Practical Scenario Briefing
- Port Facility Security Plans/ Survey
- TRANSEC Security Standards and TRANSEC update

To discuss your needs, call Kenny Dalton on 0208 827 0949 or 07867 824945, or David Childs on 0208 827 0949 or 07803 933801.
